SUB-IRRIGATION Will Not Regulate the Rains,
But it will do what is equal to that, because by our system you can irrigate your land if it needs water or you can drain the land if it is too wet. If you are perfectly satisfied with your crops, and the weather is never too wet or too dry to suit you, you need not read any further, but our sub-irrigation HAS brought increased crops to other truckers (ask anyone in Sanford) and it WILL do the same for you. There is no reason why you should not investigate this. Just drop us a postal card, and we will tell you all about it or have our man call. Personal and Social.

K. M. White has been spending the week in Tampa.

Mrs. Heule of Pomona was a visitor in town last Friday.

K. Borson visited Palatka and Jacksonville this week.

Mr. and Mrs. J. E. Harper visited Jacksonville this week.

Lawton Bell of Nashville was a visitor in town on Thursday last.

Mrs. J. L. Burton, who has been quite ill for past two weeks, is improving.

Mr. and Mrs. J. W. Card of St. Johns Park have moved into the Gilbert cottage.

Mrs. Ellen Garner of Fruitland was on a shopping trip to town during the past week.

The Crescent City baseball club was to play at Leesburg yesterday, and in Palatka tomorrow.

Miss Lillian Appleby expects to leave early in August for a visit with friends and relatives in South Carolina.

Chas. F. Johnson of Jacksonville was a business visitor in town last week and saw many of his old friends.

Dr. and Mrs. Geo. C. Calhoun returned on Saturday from a week's visit to their old home in Seville, Ga.

Miss Addie Grace Waterman of DeLand, has joined her sister, Miss Hilda, as a guest of her aunt, Mrs. A. B. Torrey.

The Sprague House is becoming quite popular as a place for families to take Sunday dinner. Some 25 dinners were served there last Sunday.

Mr. and Mrs. Hill have started to build their cottage on south Summit street. During its building they will occupy the rooms of Mrs. S. B. Shaw.

The R. O. Burton house and the Catholic church have been at a standstill because of inability to secure plasterers.

The white fly is spreading over the downtown district; the pest is hatching now and if you will shake your orange or umbrella trees you can see them.

Wallace Harp is going to open an ice cream and soda water stand the first of the coming week. Such a stand should prove profitable from the start.

The Mathis Mercantile Co's sale which closed on Monday last was a pronounced success; Mr. Mathis sold the goods, and the people who bought are satisfied with their bargains.

Mrs. J. F. Rhoads has purchased the cottage now occupied by the family of R. O. Burton and which she has occupied for so many years. The deeds for the property were filed for record last week.

Fred Hubbard is at his old home in East Tennessee and is said to be quite well again. His host of old friends here are rejoiced to hear of his restoration to health.

Mr. and Mrs. John Van Pearse, who recently returned from the west, are preparing to build a home at St. Johns Park. Pending the construction of their home, they are guests at the Sprague House.

C. Oliver Chamberlin has left Tulsa, and is now located at Sapulpa, Oklahoma, where he is engaged in the hotel business, at the Hotel Lee. He likes the place, which he says is growing rapidly—the principle industry being oil wells.

The new home of Mr. and Mrs. J. E. Lorick on Oakwood Ave. is nearing completion. It will be a large and most conveniently arranged home, and a decided ornament to this pretty street.

Mr. and Mrs. Lorick will probably not occupy their new house under six weeks. Her F. Babers shipped 1300 crates of peaches from his orchard this summer. The crop netted him 90 cents per crate. Mr. Babers was offered \$1.25 per crate for them on the trees, but he is not wasting time with regrets—90 cents is pretty good for a side crop.

Mr. and Mrs. Eugene D. Lounds write friends here of the good times they are having in New York. They attended the Hutchinson-Hawkins wedding at City Island on Wednesday of last week. From New York Mr. and Mrs. Lounds expect to leave this week for Canada.

Mrs. S. B. Shaw left for the north last Monday morning to be absent about two months. The News made a mistake last week in Mrs. Shaw's destination; instead of going to the C. A. Pratt home, she goes to the home of Mr. and Mrs. Ira Pratt, in Illinois.

Ald. W. B. Campbell has just had the city pound rebuilt and it might be a good idea if the marshal would make a special effort to enforce the ordinance against dogs running the streets. They have already done a considerable damage to the street passing the Williams grove.

DOING GOOD.

To do good, which is really good, a man must act from the love of good and not with a view to reward here or hereafter.

When you feel lazy, out of sorts and yawn a good deal in the daytime, you can charge it to a torpid liver which has allowed the system to get full of impurities. HERBINE cures all disorders produced by an inactive liver. It strengthens that organ, cleanses the bowels and puts the system in good healthy condition. Price 50c. Sold by Ackerman-Stewart and J. H. Haughton.

The Musicals and Porch social given by the Musicians club at the home of Mr. M. H. White on Friday evening last, was a most pleasant affair and great credit is due the hostess, Mrs. W. D. Benham. The musical program was of a high order. From the sale of ice cream quite a nice little sum was realized for the piano fund.

Rev. J. H. Davis' sermon last Sunday morning was on the topic, "Why I am a Methodist." The attendance was good. Mrs. C. T. King and Miss Lucy Gaultier sang very beautifully the hymn "I Surrender All." It is not likely that there will be service at this church for the next few weeks, as the pastor expected to leave this week for a visit of a month to his old home in Kentucky.

The town authorities have had a good job done the past week by cutting down the street weeds. Now if the marshal could get his hand on the parties who have been in the habit of dumping tin cans into vacant lots and back streets, and the mayor would look them good and proper, every one would feel better. The latest outrage of this kind was a wagon load of empty cans dumped on the lake Stella front.

The baseball game on Saturday afternoon between the Bunnell club and the home nine, on the new north park diamond, was a most interesting and cleverly played contest, the home club showing a little the better in both fielding and batting. There was a good attendance of ladies and gentlemen present, and there would undoubtedly have been more had the game been better advertised.

The home club won by a score of 4 to 2 in seven innings. Capt. S. M. LaBree umpired the game to the satisfaction of both clubs.

Mrs. E. H. Prior of Jacksonville who nursed her sister, Miss Florence Newbold, through her illness of typhoid fever, was herself taken ill with the same fever, and on her return to Jacksonville was taken to St. Luke's Hospital. Here she has been since the 9th inst. Mr. Prior writes under date of last Sunday that Mrs. Prior has passed the crisis of her fever and is now thought to be getting along finely and out of danger. The many friends of Mrs. Prior in Crescent City and other parts of the county, will be rejoiced to know of her improvement.

Mrs. E. W. Andrews, who had a delightful winter home at Huntington, died some three weeks ago in Chicago. Mrs. Andrews had spent many winters at Huntington and the old Deacon Stone place, which she purchased some ten years ago, had been transformed under her direction and made most beautiful. Mrs. Andrews had been ill some time, and some two or three months ago she was brought to her Huntington home in a private car in the hope that she might receive benefit; failing, she was taken back to her home in Chicago, where she died. Her son was at Daytona Beach at the time of his mother's death. Here the Andrews' were preparing to erect a fine cottage at a cost of \$10,000 and the concrete foundations were already completed; the garage and shed for young Mr. Andrews' aeroplane were already completed, and the son was engaged in experimenting with the latter when the news came of his mother's death. Mrs. Andrews was a most charming lady and was greatly loved by her neighbors and friends in this section. She made frequent trips to Crescent City in her automobile while occupying her winter home in Huntington. Mr. Andrews is said to be a Chicago banker and spent but little time in Florida, where Mrs. Andrews came originally for the benefit of her son's health, and to whom she was greatly devoted.

Big Heads and Large Minds.
Big men have larger heads than small men as a rule—not because their mental grasp is wider or stronger, but because their bodies are larger. And therefore the proportion of the head to the whole organism must be taken into account. Again, a larger head may enclose a comparatively small brain, and a thick skull by no means indicates intellectual force. Still further, a small brain may have a very fine quality of organism, and a larger brain may be very imperfectly organized. Taking all these factors into account, we cannot always be sure that the man wearing the biggest hat is the possessor of the biggest brain.—New York American.
